Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussion was held regarding the intended use and structural differences between the Cosmetto device and Applicant's device. It was agreed upon that although Cosmetto discloses a different intended use, the Cosmetto device could still be used as claimed if one desires to do so. Therefore, it was suggested that Applicant amend the claims to include the structural differences between the inventions in order to overcome the Cosmetto reference (amend to clearly identify the openings shown in Figure 5, or amend to clearly identify the closed circular end shown in Figure 1).
